## SYSEAL® REPAIR TAPE

601 North Main Street | PO Box 468 | Madison, NE 68748  
800.255.0776 | thermaldesign.com

### SPECIFICATIONS

SYSEAL® REPAIR TAPE	WIDTH	LENGTH	THICKNESS	WEIGHT	PERM RATING
	3"	100'	15 mil (+/- 10%)	2 lbs.	≤0.02 grains/hr-sf <sup>2</sup>

Syseal® Repair Tape is an adhesive backed material made out of the Syseal® fabric liner materials used in Thermal Design's fabric liner systems. They are the same grade of fabric, although there may be very slight variations in color that exist. Our quality control objective is to match the grade and color as closely as processes allow. Syseal® Repair Tape strength is comparable to the fabric liner's strength characteristics. Most applications of our fabric liner systems are designed and installed to use very little, if any, Syseal® Repair Tape.

### AVAILABLE COLORS

White, Super White, Black, Silver Aspen, Toni Taupe™  
Additional colors available upon request.
